Personal Statement

- I am a 19-year-old full-stack developer, currently studying Software Analysis and Development at the Federal Institute (IFSP) because I believe technology and innovation can make a real impact on people's lives. I have a solid knowledge of Salesforce and React;
- Last year, our team secured the global nominee title with our solution in NASA's Hackathon, an achievement where questioning the status quo and communication were vital;
- I also participated in the Hackathon Liberdade, wherein about 36 hours, I collaborated with people I hadn't met before to create and present a technological solution for the social and structural issues we identified in the Liberdade neighborhood in São Paulo, Brazil.

Skills

- Salesforce admin and developer (Apex, APIs, LWCs and OmniStudio);
- React
- Teamwork and interpersonal communication.

Education

- Technologist, Software Analysis and Development - Instituto Federal de São Paulo (IFSP) **2023 - 2025**
- Technical, System Development - Etec de Guarulhos **2020 - 2022**

Work Experience

- Junior Software Developer - Vivo (Telefônica Brasil) **Since mar/2024**
- Software Development Internship - Vivo (Telefônica Brasil) **aug/2023 - fev/2024**

Additional Qualifications

Hackathons

- **Hackathon Liberdade | iHack2Green | Potência Tech | Virada ODS | Oftalmohack | GRU Zoo | Space Apps**
- Each of these events I participated in was a unique and intense experience in which I exercised various skills;
- I worked in groups with diverse people whom I hadn't met before;
- I collaborated in the creation of technological solutions based on extensive hours of research;
- I used the Design Thinking process for problem identification and research organization;
- I learned how to adapt to feedback from mentors and judges;
- I practiced communication skills to understand my colleagues' ideas and to communicate my own;
- I developed software in a team setting and under tight deadlines.

Volunteer - NGO Anjos da Rua (Angels for the Street)

Since 2022

- The NGO "Anjos da Rua" carries out the social action of delivering food to vulnerable families;
- I participate in the manufacturing of "cestas básicas" (basic food basket) for families in vulnerable situations, developing altruism, teamwork, responsibility, and communication skills.

Extracurricular courses

- Plataforma PROA - Instituto PROA - 100h **2023**
- Communication and Public Speaking - Escola Conquer - 10h **2023**
- Attitudinal Accessibility - Guia de Rodas - 1h **2023**
